

## Data Recovery

Accidentally lost or delete data? I provide expert Data Recovery Services from hard disk drives, tapes, zip disks, CD-Rom, flash cards and other storage media. Hard Drive Data Recovery services from all operating systems including Windows NT, Windows 2000, Windows XP, Windows'95, Windows'98, Windows ME, MS-DOS, UNIX, LINUX, AIX, HP-UX, Sun Solaris, Novell NetWare and Mac.

- Repair Outlook PST files - recover corrupt Outlook mailboxes
- Outlook Express MBX & DBX Recovery - 4, 5.0, 5.01, 5.5 and 6.0 versions supported
- Windows File Recovery Software - supports more than 300 file types
- Deleted File Recovery Software - recover deleted files quickly and easily

Data recovery utilities will examine your inaccessible hard drive for damages & corruptions and recovers the data back. Recover documents, spread sheets, email, photo, music, video & application data files.

Requirements: PC, laptop, or Macintosh computer must have CD and/or DVD drive, plus USB 1.1 support. Most PC's since 2001 fit these requirements.

Upon request, I can also provide you with a CD or DVD backup of your data, in addition to the recovered hard drive data. This gives you an instant backup of your data if a problem occurs in the future.

**IMPORTANT NOTE:** if you have experienced some sort of data loss or corruption, it is imperative that you do not turn on the computer at all - the less the computer is used, the better chance there is of full data recovery.

Please feel free to contact me if you have any questions or comments.
